“Competences, Learning outcomes, Qualifications: Transparency contributing to Employability”

Rome, 5-6 July 2007

Workshop 5 Sectoral approaches to qualifications

The aim of this workshop is to:

- ✓ Explore specific experiences carried out at sectoral level for the definition and formalization of qualifications (bringing in the experiences of different economic sectors)
- ✓ Analyze the contribution of the different actors (including social partners) involved in this process

Key issues to be discussed during the debate session:

Beside the exchange of experience, the following points will be / can be discussed:

1. Evidence based structure for the specific sector?
2. Role of social partners in the sector?
3. Mandatory, recommendatory (voluntary), for the sector ?
4. Common assessment tools in a sector to create trust?
5. Assessment authority, who is trusted in a sector ?
